

Workshop de la Fédération de Recherche 3C « Social and Sensorimotor Cognition »

22 Mai 2017

Salle des Voûtes

PROGRAMME DE LA JOURNEE

9:00-9h30

Welcome and Coffee

09:30-11h00

Vicarious activations - from perception to behaviour

Valeria Gazzola and Christian Keysers
Netherlands Institute for Neuroscience & University of Amsterdam

11:00-11:15

Coffee break

11:15-11:35

Predictive coding, action and behaviour in autism spectrum disorder

Bruno Wicker
Laboratoire de Neurosciences Cognitives, CNRS et Aix-Marseille
Université

11:35-12:00

Stereotype threat effects on cognitive performance: From children to older adults

Isabelle Régner
Laboratoire de Psychologie Cognitive, CNRS et Aix-Marseille
Université

12:00-14:00

Lunch

14:00-14h50 **Early social, affective and motor experience differently impact the developing infant brain**

Pier-Francesco Ferrari,
Institut des Sciences Cognitives Marc Jeannerod, CNRS et Université
Claude Bernard/ Lyon

14h50-15h10 **Perspective taking: sensorimotor foundations and neuropsychological investigations.**

Christophe Lopez
Laboratoire de Neurosciences Intégratives et Adaptatives, CNRS et
Aix-Marseille Université.

15h10-16h00: **Round table and concluding remarks**

For lunch please register : sandrine.basques@univ-amu.fr
